LOST PART OF FOOT IN THRESHER WHEEL

BOARDS OVER SEPARATOR GAVE
WAY WITH AUGUSTUS,
KEISTER.

WAS RUSHED TO HOSPITAL

Amputation Was Necessary—Acci-
dent Happened on the Farm of
Supervisor Buckaloo.

Augustus Keister of Nelson town-
ship, had a narrow escape from very
serious injury and possibly death
while assisting in threshing at the
farm of Supervisor C. C. Buckaloo of
that township Monday afternoon and
as it is he is suffering the loss of a
part of his left foot.

During the work he climbed on top
of the separator to make repairs and
as he stepped onto the cover over the
swiftly revolving cylinder, it broke
beneath his weight. Mr. Keister felt
the boards giving way and attempted
to jump clear of the machine but was
unable to get away and his left foot
was drawn into the machinery, the
toes and fore part of the foot being
torn to shreds.

A Dixon physician was summoned
and by improvising an ambulance of
his automobile he brought Mr. Keis-
ter to the Dixon hospital, where the
fore part of the foot was amputated.
Mr. Keister was resting easily today
and it is thought he will recover
quickly. In the meantime he is con-
gratulating himself that his injuries
were not more serious, for generally,
in accidents of this kind, the loss of
a leg or life itself results.

DISCLOSE IDENTITY OF BOYS IN SKETCH

MANY WERE UNABLE TO PIERCE
DISGUISES IN THE "DEPOT
LUNCH COUNTER."

Hundreds of people have been spec-
ulating as to who the young men
were playing the various parts in the
"Depot Lunch Counter," the comedy
presented at the Assembly Saturday
evening. So insistent have some be-
come upon knowing who the boys are
that the following explanation is pub-
lished:

Flora Flip, who tended the maga-
zine counter, was played by Ralph
Bates; Rube, the read-headed coun-
try boy who had charge of the depot
lunch counter, was Stanley Cryor;
Roland Greig took three parts, Mr.
Pippin who owned the lunch counter
and who proved to be Rube's father,
the passenger in a hurry and the deaf
man; Byron Brooks was the stammerer
and also the widow; Dan McKenney
was the Jew and "Mamma's Boy";
Norman Eichenberg was Hist, the de-
tective; Clyde Baughman was the
conductor and Kronkiskippel the Ger-
man customer, and Charles Ander-
son was U. B. Quick and the cripple.

PRESENCE OF MIND.

Lee Brink saved himself from ser-
ious injury the other evening when,
while crossing First street between
Peoria and Hennepin avenues, he
found himself directly in front of a
rapidly approaching taxi cab.

Brink had no time to jump side-
ways, the machine was so close upon
him, so he jumped for the machine,
clear up onto the hoop, jammed his
shoulder into the windshield, which
broke, and then slid off on the fen-
der and to the pavement, unhurt. His
quick decision to "take the bull by
the horns" saved him from being run
over.

MRS. COLEMAN OF ROCHELLE IS DEAD

Mrs. John Coleman of Rochelle,
wife of the democratic state rep-
resentative from the 10th district, died
at St. Anthony's hospital in Rock-
ford. She underwent an operation
last Saturday.

SON BORN.

Born August 2nd to Mr. and Mrs.
Dean Treat of Green Bay, Wis., a
son, Harold Dean Treat.

BULLETIN

STRIKERS BATTLE POLICE.
Cincinnati, O., Aug. 5.—Special to
Telegraph—Running battles between
striking teamsters and sympathizers
and the police of this city today ended
in the arrest of 22 strikers. More
trouble is looked for.

POWDER MILL BLOWS UP.
Wilmington, Del., Aug. 5.—Special
to Telegraph—Grinding mills Nos.
11 and 12 at the Dupont powder
works exploded today with tremen-
dous reports. The buildings and ma-
chinery were badly wrecked.

WOMAN SHOTS ANOTHER.
Chicago, Aug. 5.—Special to Tele-
graph—In a fight witnessed by over
100 persons, Mrs. Fannie Sandusky
was shot four times and killed by
Mrs. Hattie Herbert, in front of the
latter's home here today.

CLAM BAKE TICKETS ARE NOW ON SALE

EVERY MEMBER OF ELKS LODGE
NO. 779 RECEIVED HIS
TICKETS TODAY.

Every member of B. P. O. E. lodge
is now a full fledged and relied-upon
booster for the big clam bake to be
held here Labor day, for this morn-
ing every member of the lodge receiv-
ed a special invitation to get busy
and help make the affair the biggest
thing in the history of the lodge.
The work of the majority of boost-
ers will be confined to getting out a
big crowd and accordingly every
member is expected to dispose of at
least two tickets, while five is the av-
erage counted upon by the commit-
tee.

MILK AND ICE ARE RAISED IN PRICE

HOT WEATHER CAUSES AN IN-
CREASE IN NECESSITIES—
BUTTER MAY GO UP.

Dixon people are beginning to feel
the effects of the hot weather in
other ways than physical discomfort,
for the cost of two important com-
modities has been increased within
two weeks.

Milk and ice have both advanced,
and it is predicted that butter will
follow unless rain replenishes the
pastures. Local milk dealers have in-
creased the price from 7 to 8 cents
per quart, while an increase of 5
cents per 100 pounds has been an-
nounced by the Distilled Water Ice
company.

MOTORCYCLIST CAUSED TIPOVER

MRS. JOHN P. DREW WAS IN-
JURED IN ACCIDENT SUN-
DAY EVENING.

Mrs. John P. Drew, wife of Super-
visor J. P. Drew of Palmyra, is suf-
fering considerably from the result
of injuries received about the chest
when the buggy in which she was re-
turning from Dixon Sunday evening
was overturned when the horse be-
came frightened by a motorcycle rid-
den by S. R. Breneman and lady of
Lanark.

The accident was occasioned near
the Bert Smice place and was occa-
sioned by the motorcyclist driving
too near the buggy, although the su-
pervisor had driven to one side to
give him the full road. The noise of
the machine caused the horse to turn
sharply, overturning the buggy and
injuring Mrs. Drew. Her husband es-
caped serious injury. The motorcy-
clist stopped as soon as possible and
gave Mr. Drew his name and also vol-
unteered to make good any damage
that might be occasioned.

MR. GITT IMPROVES.

The condition of Assistant Super-
intendent of Streets George Gitt, who
was injured some time ago, contin-
ues to improve and latest reports in-
dicate that his recovery will be most
satisfactory.

POLICE NEED LIST OF ILL. AUTOISTS

SECRETARY OF STATE FAILS TO
SUPPLY THE REQUESTED
BOOKS.

CANNOT GET NAME OF OFFENDERS

County Clerk Supposed to Have One
But is Furnished Only With
Incomplete List.

The local police are wondering
what turn the attitude of Secretary
of State Harry Woods will take next,
for, in a recent letter sent to Com-
missioner Gannon he makes it almost
impossible for policemen to apprehend
violators of the state automo-
bile laws.

During the regime of James Rose
and Cornelius Doyle as secretaries of
state, every chief of police in Illinois
was furnished printed lists showing
the numbers of licenses issued every
month of the year and to whom issued.
By means of these the officers
were able to learn within a short
time the identity of any car wanted.

Recently Mr. Gannon wrote the
present secretary for copies of the
few lists, but received a reply from
the department that lists would be
furnished only to county clerks of
the state.

The local officers were content
with this, as the county clerk's office
is in the city, but wondered what the
police officers of other cities would
do in case of imperative need to as-
certain the name of an owner of a car.

But the situation assumed further
complications when it was learned
that the county clerk has only in-
complete lists.

The discovery came when the of-
ficers went to the county clerk to get
the name of the owner of an auto
which caused a bad runaway and
wreck east of the city last week—the
particulars of which are being kept
secret until the guilty party can be
apprehended—and it was then learn-
ed that but a partial list had been
furnished the clerk by the secretary
of state.

SHOULDER BROKEN AND DISLOCATED

WILSON BRINK HAS A NASTY
FALL FROM SCAFFOLD
TODAY.

Wilson T. Brink, a carpenter re-
siding at 625 N. Ottawa avenue, was
seriously injured this afternoon by
falling from a scaffold at the new R.
A. Rodesch residence in North Dix-
on. In falling the unfortunate man
alighted on his left shoulder and an
X-ray examination showed that it
was fractured in two places in addi-
tion to being dislocated. He was tak-
en to the Dixon hospital, where his
injuries were attended to.

FARRAND TO SPEAK AT SHABBONA PICNIC

Judge R. S. Farrand of this city
has been invited to give an address
at the Old Settlers' picnic for DeKalb
county old settlers, to be held Sept.
3rd at Shabbona. The judge has ac-
cepted the invitation.

SPECIAL MASON TRAIN.

A special train of twelve cars the
Northwestern officials promise will
be the finest special ever operated on
their line, will pass through here on
Saturday at about 3:30 p. m. bearing
a large number of Knights Templar
from Chicago and surrounding cities
to the annual convocation at Denver.

The train will stop 30 minutes at
Sterling, according to the Sterling
Gazette, where the Siloam comman-
dery band of 65 men and drum corps
of 25 pieces will give a concert. The
band is the largest in the country
and is composed entirely of Masons.

As far as known none of the local
Knights Templar will go to the con-
clave this year.

ABOUT THE SAME.

F. A. Watson, who is critically ill
at his home in Chicago, continues to
hold his own but does not improve
perceptibly, and is regarded as being
in a very serious condition.

LIND TO MEXICO; WILSON RESIGNS

FORMER GOVERNOR OF MINNE-
SOTA TO CARRY OUT PRESI-
DENT'S POLICY.

MISSIONARIES WARNED TO FLEE

Executive Rejects Armed Intervен-
tion—Hoped New Representative
Can Cement Warring Factions in
Southern Republic.

Anderson, S. C., Aug. 5.—Dr. F. K.
Pressley, secretary of the board of
missions of the Associated Reformed
Presbyterian church, has received a
message from Secretary of State
Bryan suggesting that all mission-
aries of the church be ordered out of
Mexico at once. The message intimates
that the state department feels
that American missionaries are not
safe.

Washington, Aug. 5.—President Wil-
son accepted the resignation of Am-
bassador Henry Lane Wilson to take
effect October 14. The president took
the first step in the policy which he
proposes to deal with the Mexi-
can situation. He sent to Mexico City
as his personal representative former
Gov. John Lind of Minnesota, a personal
friend of Secretary Bryan.

Mr. Lind is not accredited to the
Huerta government, but the under-
standing is that when a stable admin-
istration is established in Mexico he
will formally be named as ambassa-
dor.

The statement from Secretary Bry-
an read:
"Ex-Governor John Lind of Minne-
sota has been sent to Mexico as the
personal representative of the presi-
dent to act as adviser to the embassy
in the present situation. When the
president is ready to communicate
with the Mexican authorities as to
the restoration of peace he will make
public his views. Governor and Mrs. Lind
departed for Mexico tonight by rail to
proceed via New Orleans or Galveston."

Further Word Later.

It became known that a further an-
nouncement would be made by Presi-
dent Wilson in a few days, possibly on
the arrival of Mr. Lind in Mexico City.

It is said the president is observing
with keen interest the efforts of lead-
ing Mexicans to bring about peace,
and will offer no suggestions until
these apparently prove futile. That
Mr. Lind will be empowered to ex-
plain to all inquirers the unalterable
opposition of the American govern-
ment to the recognition of the Huerta
administration, is expected to be a
factor which may assist the situation.

President Reticient.
Little of an affirmative nature came
from President Wilson or Secretary
Bryan during the day to indicate what
the future policy of the Washington
government would be, though the ac-
ceptance of the resignation of Amba-
sador Henry Lane Wilson settled finally
that his recommendations for re-
cognition of the Huerta government after
a period of military co-operation in
northern Mexico on the part of the
United States to restore peace had
been rejected.

While officials of the administration
here look with disfavor upon the pro-
cesses of armed revolution to over-
throw constituted government in Lat-
in America, there is a distinct feeling
of sympathy manifest toward the Lib-
eral movement in Central America, of
which Madero's administration was
the beginning in Mexico. Arguments,
therefore, that it was necessary to
have in Mexico the "iron hand of
Diaz," which might be expected in
Huerta, failed to make an impression
on government officials here, who be-
lieve that the Latin-American govern-
ments cannot thrive on the extremes
of civil tyranny or military dictator-
ships.

These ideas are likely to be reflect-
ed in whatever pronouncements the
president may make in the near fu-
ture, and form the keystone of the ad-
ministration's policy toward the Latin
republics.

Porfirio Diaz to Return.
Yokohama, Aug. 5.—It is reported
that Porfirio Diaz left Southampton
for the Orient July 15, via Suez, to
meet Felix Diaz in Japan and accom-
pany him back to Mexico, leaving
Japan September 1.

JAMES H. MORRIS WILL HAS BEEN FILED

The will of the late James H. Mor-
ris, the pioneer grocer, was admitted
to probate today in the county court,
William S. Morris and Loisie E.
Morris being appointed executors
without bond.

No inventory was filed, conse-
quently the value of the estate is
not known, but it is estimated that
Mr. Morris left property worth be-
tween \$50,000 and \$60,000.

COUNCIL WILL OPEN BIDS THURSDAY AFT.

ADJOURNED LAST NIGHT UNTIL
THURSDAY—TO AWARD
BIG BRICK CONTRACT

I. N. U. BLAMES LEAKY MAIN

Say That is One Reason Gas Pressure
is Poor—Will Remedy the
Matter at Once.

WHAT THE COUNCIL DID.
Allowed semi-monthly bills to the
amount of \$3,388.19.

Repealed section 3 of local im-
provement ordinance No. 151, which
relates to the construction of storm
water inlets and concrete bulkheads
in sewers on Everett St.

Adjourned until 2 p. m. Thursday,
Aug. 7, when bids for the construc-
tion of the Second and Third street
pavements will be opened and consid-
ered.

The Gas Question.

The question of poor gas service,
many complaints of which have been
received by the councilmen, was tak-
en up briefly when Commissioner
VanBibber asked Mayor Brinton, in
whose department the utilities com-
panies are, if he had taken any ac-
tion in the matter.

The mayor replied that he had tak-
en the question up with the officials
of the utility company and they as-
sured him that everything possible
was being done to remedy conditions.
According to the mayor's statement,
the utility company officers are of
the opinion that there is a bad leak
in one of the big mains of the city,
but they are unable to find it, and
two experts from Chicago have been
engaged to go over every bit of gas
main in the city.

Passed Bills.

The bills for the last half of July,
amounting to \$3,388.19, were pre-
sented and allowed. The commission-
ers discussed briefly the amount of
the bills, and retrenchment and econ-
omy will be practiced in every de-
partment as the councilmen feel that
the bills are becoming too large.

Ordinance No. 151, providing for
sewer in Everett street, was amended
by the repealing of section 3, provid-
ing for storm water inlets and con-
crete bulkheads, which features are
not needed in the improvement.

To Open Bids.

The council adjourned until 2 p.
m. Thursday when the proposals for
the Second and Third street pave-
ments, the largest paving improve-
ment contemplated, will be received
and discussed. It will not be possible
for the council and board of improve-
ments, which will meet in joint ses-
sion at that time, to award the con-
tracts then, it being necessary for
the proposals to remain on file at
least 48 hours before the contracts
are let.

HARRY MILLER OF POLO IS DEAD

MEMBER OF THE DIXON LODGE
OF ELKS PASSED AWAY
LAST EVENING.

Polo, Ill., Aug. 5.—Special to Tele-
graph—Harry Miller, a well known
young man residing in this city, died
last evening of tuberculosis.

He is the son of Mr. and Mrs. J. P.
Miller. His parents and several broth-
ers and sisters reside here. Funeral
arrangements will not be made until
word has been received from a brother
who is in Iowa.

Mr. Miller was a member of the
Dixon lodge of Elks.

THROWN FROM BUGGY.

While driving on Second street in
front of the city hall Sunday Mr. and
Mrs. Wm. Gedson met with an acci-
dent, when their buggy pulled apart,
the front wheels following the horse
and Mr. Gedson accompanying them.
Mrs. Gedson fell forward out of the
buggy and struck on her head but es-
caped injury.

Fay Emerson, Harry Baker and
Sammis Betebrer of Oregon motor-
ed to Dixon last evening.

DISSENTION OVER INCIDENT AT GAME

CHICAGO WRITERS HAVE FUN
OVER CALLING OUT OF
WHITEBREAD.

Baseball fans have taken up Ned
Whitebread's home run, made in Sun-
day's game, which precipitated the
riot, and many letters have been sent
from Dixon to sporting authorities
asking for a ruling on the question.
Many maintain Whitebread could
not be put out unless the ball which
he hit, which in this case was knock-
ed into the river, and never recover-
ed, is put into play again.

The incident, however, has attract-
ed considerable attention from sport-
ing writers on the Chicago dailies.
Every paper published in Chicago
mentioned the incident yesterday,
while S. W. Lardner, author of "The
Wake" in the Chicago Tribune has
the following this morning:

"Mr. Whitebread of Dixon hit one
into the river and circled the bases
leisurely. He was informed that he
had missed third base. He ran around
them again and missed second. Short-
age of space prevents our printing
the innumerable merry little quips
that the incident suggests, so we'll
just let it go at that."

TREATED SOILS GIVE INCREASED RETURNS

F. W. GAULT OF THE EXPERI-
MENTAL STATION GIVES
OUT DATA.

F. W. Gault, who is in charge of
the Dixon experimental field in Pal-
myra, in an interview with the Tele-
graph today, stated that he is getting
excellent results from the phosphate
treated plots.

His wheat ranges from 15 bushels
to the acre on untreated plots to 23.8
bushels on the treated plots. There
was an increase of 6 bushels per acre
in the live stock system of farming
and 3 bushels per acre in the grain
system. I also gave an increase of
6 bushels to the acre in oats in both
the livestock and grain systems of
farming.

The alfalfa has given 4 tons to the
acre from the first two cuttings and
there is a good prospect for a third
crop.

NEW MAIL WAGON.

John Fane, who carries all mail
between the depots and postoffice,
today put into commission a hand-
some new covered screened wagon,
built to meet the requirements of the
postal department and which is a
credit to the city and its owner.

PRESENTED WITH TRAY.

A handsome silver tray, a gift to
Mrs. W. H. Smith from the congrega-
tion of St. Luke's Episcopal church,
is on exhibition in the window at the
City National bank. The tray was pre-
sented to Mrs. Smith on the occasion
of her 20th anniversary as organist
at that church and in appreciation of
her faithfulness.

Bids for Destroyers Opened.

Washington, Aug. 5.—The New York
Shipbuilding company of Camden, N.
J., was the lowest bidder for the con-
struction of the torpedo boat destroy-
ers for which proposals were opened,
at \$825,000 each for two boats. None
of the six bidders offered to construct
more than two boats each, so that, as
there are six to be built, there will be
a chance for some of the high bidders.

9:30 p. m.—(A) Moving Pictures.

Today was Recognition day at the
Assembly. A large crowd saw the
three graduates march through the
Golden Gate and the conferring of de-
grees by President I. F. Edwards,
of Dixon college, the well known ed-
ucator.

The members of the class of 1913
are:

Mesdames Mary and Hattie Sech-
ler, Rochelle.

Dr. H. D. Hoover, Carthage.
Dr. Hoover is president of Carth-
age college, one of the best known
educators of the state, and one of the
strongest men in the church of Lu-
therans.

Before the conferring of degrees
and President Edwards' address,
Sibyl Sammis MacDermid gave a
short concert which was highly ap-
preciated by the large audience.

President Edwards' address was
upon education. He praised the edu-
cational work of the Assembly and
emphasized its importance to the com-
munity, declaring that the chautau-
qua movement was growing stronger
and that people were being reached
in an educational way that could not
be reached otherwise. The course is
wide and thorough; as a reading
course it is unexcelled. One reason
for its stability is that members of
the classes could take up the work
while they pursued life's work, a
side issue from which they can get
splendid training in education.

As Mr. Edwards has devoted his
life to education his address was ill-
lud with great thoughts concerning
the value of a training for boy and
girl, thus fitting them better for life's
pursuits.

His address was enjoyed by sever-
al thousand people.

Mission Study Class.

Mrs. D. A. Davey of Chicago, the
leader of the Mission Study class,
this morning discussed the immigra-
tion question. The countries taken up
were Germany and Sweden. Mrs. Davey
is adopting the question and an-
swer plan in conducting her class.

On Wednesday morning Mrs. Davey
will take up another book, "The New America."

Program Tonight.

The Dixon Marine band will give
a concert at 7 p. m. in the auditor-
ium.

At 8 o'clock Sibyl Sammis Mac-
Dermid and her husband, James Mac-
Dermid, will give a joint recital.
Sibyl Sammis is well known here.
She has favored the Assembly with
excellent programs in former years.
She is an eminent soprano. Her hus-
band is a song writer.

PARISIAN SAGE FOR THE HAIR

If your hair is too dry—brittle—colorless—thin—stringy—or falling out—use Parisian Sage—now—at once.
It stops itching scalp, cleanses the hair of dust and excessive oils, removes dandruff with one application, and makes the hair doubly beautiful—soft—fluffy—abundant. Try a 50c. bottle to-day.
It will not only save your hair and make it grow, but give it the beauty you desire.

GRADE HALF MILE FOR \$7.50

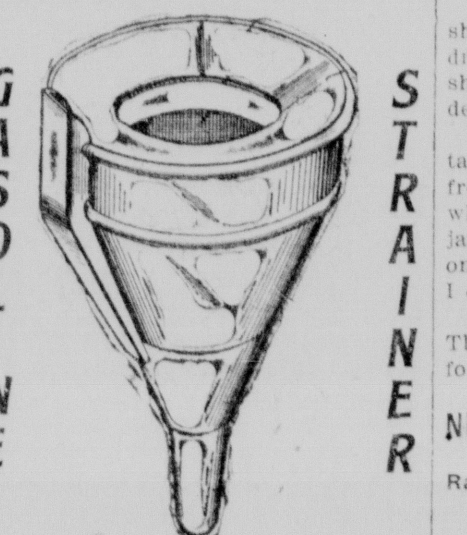

Riley County, Kansas, Outfit Did the Work in One Day—Three Men Were Necessary.

One traction engine, one road grader, and three men graded a half mile of road in one day. This was accomplished on a Riley county road at a cost of \$7.50, says Kansas Industries. The engine, running on kerosene, consumed fuel at the rate of 20 gallons a day which, at a cost of 7 1/2 cents a gallon, cost \$1.50. Three men were necessary to do the work—one to run the engine and two on the grader.

With the exception of the engineer, the work can be handled easily by laborers. The cost of road grading ranges from \$15 to \$50 a mile, depending on the soil and condition of the road, the width graded, and the price of labor.

ASKS 58 CITIES TO AID CROP PLAN

Secretary McAdoo Invites Clearing House Association to Discuss U. S. Deposits.

WILL HOLD THREE MEETS

Southern Representatives to Confer on Thursday—Western Delegates on Friday, and Pacific Coast Next Week.

Washington, Aug. 5.—Representative bankers of fifty-eight cities in the agricultural regions of the south, middle west and Pacific coast, were invited by Secretary McAdoo to come to Washington to confer with the treasury department regarding the distribution of the \$50,000,000 of government funds about to be deposited in the national banks of those sections to facilitate the marketing and movement of the crops.

The conference with the representatives of the clearing house associations in the south will be held at the treasury department next Thursday.

Delegates to Meet Friday.

The representatives of the western cities will meet the secretary on Friday, while the representatives from the clearing house associations on the Pacific coast will meet a week from Thursday.

The cities which have been invited to have representatives at these conferences are as follows: Birmingham, Mobile and Montgomery, Ala.; Little Rock, Ark.; Los Angeles, and San Francisco, Cal.; Denver, Colo.; Tampa and Jacksonville, Fla.; Atlanta and Savannah, Ga.; Chicago, Ill.; Evansville, Fort Wayne and Indianapolis, Ind.; Des Moines and Sioux City, Ia.; Kansas City and Wichita, Kan.; Louisville, Ky.; New Orleans, La.; Baltimore, Md.; Vicksburg and Meridian, Miss.; St. Louis and Kansas City, Mo.; Minneapolis and St. Paul, Minn.; Detroit, Mich.; Charlotte, Wilmington and Raleigh, N. C.; Omaha, Neb.; Oklahoma City and Muskogee, Okla.; Portland, Ore.; Cincinnati, Cleveland and Columbus, O.; Charleston, Columbia, Spartanburg and Greenville, S. C.; Chattanooga, Knoxville, Memphis and Nashville, Tenn.; Dallas, Galveston and San Antonio, Tex.; Richmond, Norfolk and Roanoke, Va.; Wheeling, W. Va.; Seattle and Spokane, Wash., and Milwaukee, Wis.

The secretary said that it is not practicable to increase the number of cities which are to be represented at the conferences and that he thought that those selected were thoroughly representative of the different sections of the country where the crop moving funds are to be placed.

WINS U. S. AUDIENCE

Mrs. Evelyn Thaw Appears on Stage in New York.

Dances the "Tango," "Boston," "Hesitation" and Other New Waltzes.

New York, Aug. 5.—Evelyn Nesbit Thaw's first appearance on the American stage since she was married to Harry Thaw, who killed Stanford White, was made in New York.

When Mrs. Thaw danced into sight with Jack Clifford the spectators beheld an attractive looking young woman with a beautiful dark hair caught with a black band over the forehead, and flowing loosely over bare shoulders. Her gown was of canary colored crepe, the waist cut low. Stockings to match and black satin pumps with silver buckles completed the costume.

Mrs. Thaw and Mr. Clifford first danced some of the infinite variations of the "tango." Then they gave the "Boston," the "hesitation," and other new waltzes. Specimens of the more lively "one-step," the alias of the "turkey trot" finished their act. The applause increased with each appearance till at the end Mrs. Thaw was forced to appear and thank the audience.

It was evident as she danced that she was anxious to be liked. In her dressing-room it also was evident that she was greatly relieved that the ordeal had ended happily.

"But it had to be all right with this talisman," she said, and she pulled from the front of her waist a small white thing. "This is my little boy's jacket," she said. "It was his first one, and I wore it next my heart when I danced at the Hippodrome."

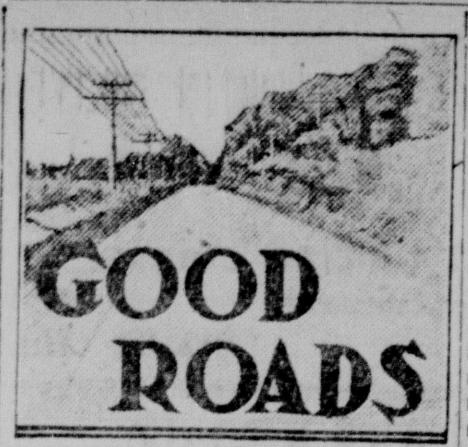

A judgment was filed against Mrs. Thaw by a Fifth avenue millinery firm for \$2,361.

SENATORS FAVOR GOOD ROADS

Growing Belief That Government Should Concern Itself With Construction of Highways.

National roads come in for repeated reference in the senate debate relating to the post office appropriation bill. It is evident that there is a constantly growing belief that the federal government before long should concern itself with the construction of trunk line roads, thus encouraging and making more convenient the great flood of interstate travel.

During the debate in the senate Senator Swanson of Virginia made this comment: "We are now confronted with the proposition whether the federal government shall or shall not extend aid for the development, improvement, and construction of highways. The time has arrived, or will very soon arrive, when the people of the United States will demand that the federal government shall extend proper aid. Whatever may be the views of some, it is a question that must be inevitably met, and one that cannot be shirked. When a government comes to extend aid for roads there are two ways by which it can be done: It can furnish the money and construct the road itself, or it can aid, stimulate and lend inducement to the local authorities to do the work of road construction and improvement."

Senator Heyburn of Idaho believes: "When the government enters upon this class of work it should be for the standard of the highest use, not all at one time, but continuously and gradually; not roads one part of which would be worn out before the other was constructed, but a system of progressive construction that would result within a reasonable time in a system of permanent good roads."

Senator Williams of Mississippi is a contender for first class construction. Said he, "You must make one road good, then you must make another good, and then a third and then a fourth. There must be some scheme whereby they could be done with fairness to the states and the several sections of the country."

Senator Lodge of Massachusetts contends: "If we are to enter upon the policy of federal aid in good roads it will involve an expenditure of more millions than the Panama canal cost, and it ought to be done only after most careful consideration and on a broad, well understood, well arranged plan, so that for the millions expended we may get value in the return we desire in good roads."

Senator Bourne, of Oregon, who is chairman of the senate committee on postoffices and postroads, said: "I am heartily in favor of good roads. My opinion is, however, that we have not sufficient information to take intelligent action as to the best method of procedure."

POOR ROADS ARE EXPENSIVE

Inefficiency Costs Southern States \$300,000,000 a Year to Cart Cotton to Railroads.

The cost of bad roads is strikingly set forth by Wm. C. Redfield, secretary of commerce in President Wilson's cabinet, in this manner:

"The inefficiency arising from bad roads makes it cost something like \$300,000,000 a year to cart our cotton crop from the fields to the railway station. I think few people realize the immense tax put on us all by bad roads and inefficient handling."

I have said that if our farmers once realized the awful tax that bad roads impose upon them public opinion would sternly demand the making and maintaining of good roads everywhere. It now costs the farmer twelve, yes, twenty or more, times as much per ton mile to move his goods to the railway station as it does to move them on the railway after they leave the station. The farmer, indeed, in bad cases and at certain seasons may have to pay as much as \$1 a ton mile, while the railroad carries the freight, when it once gets it, at an average of three-quarters of a cent per ton mile.

Among the factors which bring up the cost of living there are few which stand ahead of the useless cost of transportation, due to poor and often impassable roads. Poor roads not only make the consumer pay more for produce, but they rob the producer of that which should be added to the price paid him for his produce. There are few subjects on which the public is so unanimous as this one of the cost of poor roads, and yet at the same time few subjects on which it is harder to make people agree as to the remedy and where the initiative should be taken.

Producing Pork.
At the Iowa station corn and soy beans hogged down produced 157 pounds of pork per bushel of corn. At eight cents per pound that is \$1.23 per bushel for the corn.

MAILED FOR BRIBERY

FIVE WEST VIRGINIA LEGISLATORS SENTENCED TO PRISON.

Lawmakers Found Guilty of Accepting Money in Election of United States Senator.

Webster Springs, W. Va., Aug. 5.—Sentences were imposed on the five members of the West Virginia legislature by Judge W. S. O'Brien in the superior court. The legislators were convicted of bribery in connection with the election of a United States senator early in the year. The sentences follow:

Delegates S. U. G. Rhodes, Rath Duff and H. F. Asbury, six years each in the penitentiary; State Senator B. A. Smith, five years and six months, and Delegate Dave Hill, five years.

In addition, the five are disqualified for life from holding any public office or office of trust.

The sentencing of the legislators came shortly after Delegate Dave Hill, the fifth to stand trial on bribery charges, was convicted. An arrest of judgment and stay of execution for 90 days was allowed by the court to permit attorneys for the defendants to make applications for appeals to the state supreme court.

More than two months have been consumed in the trials of these cases, the first of their kind in West Virginia. Seven legislators were indicted, the five already tried have been held on felony charges and the other two, George S. Van Meter and Rev. T. J. Smith on misdemeanor charges. The trial of the last two probably will be deferred until another term of court.

The five convicted legislators were arrested in a Charleston (W. Va.) hotel on February 11 by Sheriff Honner Hill, in the presence of Public Prosecutor Townsend, who, with the aid of a private detective, investigated the rumors of bribery which were being circulated at that time in regard to the senatorial election. Before their arrest, it is alleged, they were paid by the private detective for their votes and the marked money was found on their persons.

FARMER'S WIFE ALMOST A WRECK

Restored to Health by Lydia E. Pinkham's Vegetable Compound—Her Own Story.

Westwood, Md.—"I am a farmer's wife and do most of my own work when I am able. I had nervous spells, female weakness and terrible bearing down pains every month. I also suffered much with my right side. The pain started in my back and extended around my right side, and the doctor told me it was organic inflammation. I was sick every three weeks and had to stay in bed from two to four days."

"It is with great pleasure I tell you what Lydia E. Pinkham's Vegetable Compound has done for me. I have followed your directions as near as possible, and feel much better than I have felt for years. When I wrote you before I was almost a wreck. You can publish this letter if you like. It may help to strengthen the faith of some poor suffering woman."—Mrs. JOHN F. RICHARDS, Westwood, Maryland.

Women who suffer from those distressing ills peculiar to their sex should not doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham, Medicine Co., confidentially, Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

CONFIRMED PROOF

RESIDENTS OF DIXON CANNOT DOUBT WHAT HAS BEEN TWICE POURED

In gratitude for relief from aches and pains of bad backs—from distressing kidney ills—thousands have publicly recommended Doan's Kidney Pills. Residents of Dixon who so testified years ago, now say the results were permanent. This testimony doubly proves the worth of Doan's Kidney Pills to Dixon kidney sufferers.

J. B. Clark, 722 Highland Ave., Dixon, Ill., says: "I had kidney complaint and backache and the doctors seemed unable to do anything for me. Finally I read of Doan's Kidney Pills and got a supply at Leake Bros. Co.'s Drug Store. This remedy cured me and I have not had any serious trouble since. I consider Doan's Kidney Pills worthy of the highest praise and I am willing to confirm the statement I gave in their favor some years ago."

One can't help but wonder at the good nature of the colored lady who was pitched out of a buggy head first and then, when asked if she was hurt, replied: "No sah. Ah just fel led out."

And again one would have occasion for further wondering, after hearing Commissioner Gannon's remarks, "Send him all his clothes so he can stay there," which was made after he had read a card from Commissioner Schuler, who is vacationing in Minnesota, asking that his overcoat be sent him. The wonder in this case would be as to Mr. Gannon's meaning.

Some Argument
Scene—Dixon business establishment.

Participants—One of the hired men and a visitor.

(Hired man sweeping)
Visitor—Why don't you use a brush instead of an old fashioned broom

Hiring—For the very simple reason that an old brush leaves a mark every time you take it from the floor, it doesn't get all the dust, and in fact a brush isn't worth a darn at any stage of the game.

Visitor—A brush is best if you know how to use it. But you must wash it often and comb out the bristles, just like you would a horse's mane.

Unanswerable Logic

Last Sunday morning Fanny received one of those new 5-cent pieces recently issued by the government, and was instructed by her mother to drop it in the contribution box at church, as it was for the Lord. The new coin looked bright and attractive. Consequently the child was loath to part with it. She turned to her mother and said: "Mamma, didn't you tell me that the Lord could make everything?"

"Yes, my child," replied the mother. "The Lord is almighty and can create anything and everything."

"Well, then, ma," asked the little girl, "why doesn't the Lord make his own nickels? I would like to keep this one."

DAINTIES FOR HOT DAY

PARFAITS MAKE MOST DELICIOUS DESSERT IN SUMMER.

Particularly Good in That They May Be Prepared in Advance of the Rest of the Meal—Whipped Cream the Best Base.

The parfaits, and mousses and biscuits (pronounced in French, "bisk-weet") are particularly practical desserts, as they need no stirring during the freezing process. They can be made and left to ripen some hours before serving. This enables the cook to set the dessert aside and do all the rest of her work up to the last minute. And, again, they are less trouble to prepare than pies, cakes or puddings. They should, however, be eaten very slowly, that the digestion may not be retarded by chilling.

These simple concoctions are in general light ice creams, having as a base custards, creams, whipped eggs reinforced with fruits, sirups and gelatin or combinations of these. The most frequent base is whipped cream. The cream must be beaten until very stiff, flavored as desired and placed in a mold in the ice for three to four hours. All ingredients must be carefully folded into the cream to preserve the mosslike texture of the frozen product. Gelatin can be used with this cream and the whip of thin cream as well. The proportions of sugar and flavorings are about double those needed for an ordinary pudding.

When using fruit it is generally better to use the juices, or pulp, as bits of fruit become too much like lumps of ice to be pleasant eating.

The difference between parfaits and mousses may be said to consist in the use of eggs and sirups in parfaits and the sugar and gelatin in mousses. The biscuit is merely mousse molded in individual forms.

While preparing the mixture, place the mold on ice until it is thoroughly cooled, then put in the mixture by spoonfuls and spread it carefully throughout the mold. Fill so that when the cover is put on some of the mixture will be forced out. Cover the top of the mold (before putting on the lid) with buttered paper or soft wrapping paper a little larger than the surface to be covered. Put on the cover, and bury the mold in the freezing mixture for from three to four hours. If this method is followed, no salt can possibly enter the mold.

The ordinary proportion for freezing is three parts of ice to one of rock salt, but here we suggest two parts of ice to one of rock salt. When rock salt and ice about the same size are mixed, the salt melts the ice in order to unite with it. In this way the salt, too, dissolves, so that both solids are liquefied. The heat which causes this to happen is drawn from the ice cream which is to be frozen, as it is by the extraction of heat that the freezing process is porous or snow ice, as the air holes permit the salt's easy access to the ice, causing it to melt rapidly. Do not draw off the water in the freezer until the ice floats on top (this liquid being colder than the unmelted ice), because the freezing process is at its height and the water from this time on will rise in temperature and can then be drawn off. If necessary at this point, more of the freezing mixture can be added.

Wash the mold in cold water, remove all brine, and wipe perfectly dry. Remove cover and paper. Invert the mold on a flat dish, and if the room is warm it should slip out comfortably. If it does not rinse a cloth in hot water and wrap it about the mold for a minute or so until the contents slide out readily.

It is better not to let mousses or parfaits freeze very hard, as they are difficult to remove from molds and are not so pleasant to eat. Very often to obviate the difficulties encountered on removing these tightly frozen desserts, the mold is lined with a sherbet whose melting point is higher than the mousse or parfait.

Cleaning Ebony Brushes.

For cleaning ebony brushes the following is very good: Before washing, rub a little vaseline over the backs, as this prevents the ammonia or soda in the water from injuring the ebony. The vaseline should afterward be rubbed off and the backs polished with a dry cloth.

BROWN BOTTLE BLUFF PUNCTURED
Chicago, November 12, 1912.

To our Clients—
Please take note that we have recently given our opinion to one of our clients as to the relative merits of the white and brown bottle for beer, as follows:
"Referring to your recent request for our opinion on the relative merits of the white and the brown bottle for beer, we wish to say that the ONLY advantage of the brown bottle over the light bottle consists in the protection afforded against the light. BUT WHERE BEERS ARE NOT OF SUCH QUALITY AS TO BE IMMUNE AGAINST THE EFFECTS OF LIGHT, THE LIGHT INFLUENCES AS PROLONGED CHILLING AND PROLONGED STORAGE AT SUMMER TEMPERATURE, they also become less sensitive to the influence of light, so that with the usual precautions no bad effect need be feared.
"FOR SUCH BEERS THE LIGHT IS PREFERABLY EMPLOYED because it can more readily be inspected before being consumed and the customer at a glance whether the contents are of the requirements of the consumer as to color, clarity and freedom from sedimentation."

WATER THE GRASS

One of the greatest attractions a city can have is green, well trimmed, smooth lawns. Water is cheap and is a good investment when you get green lawns for it. If all citizens of Dixon would pay the attention that many do, to the outside appearances of their homes, our city would be even more beautiful than it now is.

It has been suggested that more water on the court house lawn would improve its appearance greatly. It is very dry and yellow.

PULMOTOR IS NEEDED.

At various times during the past few months the Telegraph has expressed an opinion regarding the need of a pulmotor in Dixon. The dire necessity for one was illustrated recently in the drowning of Mr. Schuckhart, the young man whose death occurred early in the spring, and there can be no argument against the proposition and it is only a matter of getting the thing started. All will agree that it is needed.

Dixon is too good a town to afford to be behind the times in regard to a matter of such moment, although it is of little consequence financially. The cost of the wonderful machine which will often bring back to life the victims of drowning, asphyxiation, etc., should not be counted, for what price can be put on a human life?

The city should own a pulmotor, and own it without delay. The Telegraph suggests that the city council buy one at once, as no one can tell when an accident may happen which

would make procrastination regrettable in the extreme.

The Telegraph is investigating the cost of one of the machines and will have the figures to present within a few days.

Better supervision is another trend of education. The consolidated school is also here to stay. Many states are getting interested in the movement. From the consolidated school we get better results at less expense. The only question is transportation. The cost of transportation must come from the funds of the district.

Mr. Miller had a large audience and was given close attention.

There was no meeting of Round Table this afternoon. The next meeting will be on Wednesday afternoon when "Our Lights; How Did We Get Them?" will be discussed by Prof. Ransom Harvey of LaGrange, Mo.

Attorney A. G. Harris of this city will address the Round Table Thursday afternoon.

Bible Hour

Dr. Howard discussed very interestingly this morning, "The Spirit of Life," before a good sized audience. His talks are much enjoyed. Wednesday morning he will discuss the subject, "Justification by Faith."

Band Concerts

The concerts by the Dixon Marine Band are enjoyed by large crowds. They are counted one of the best things on the program. The one last evening was one of the best thus far given. The solo work on the trombone by Earl Senneff is the talk of the Assembly.

Illustrated Lecture Good

The illustrated lecture last evening by Dr. L. B. Wolf was very good. The pictures were splendid and the Doctor gave a very interesting description of scenes and temples in India.

Wednesday's Program.

Wednesday's program offers several good attractions. The Chicago Ladies' Orchestra will play a full concert in the afternoon and a prelude in the evening.

In the evening Prof. Montraville M. Wood, the noted inventor, will lecture. Thousands heard Prof. Wood a year ago and thousands will hear him again.

After Prof. Wood's lecture there will be moving pictures by Joseph Daunter.

Hillis on Thursday.

Dr. Newell Dwight Hillis will lecture Thursday afternoon.

Mason Pleases

Dr. M. C. B. Mason pleased nearly three thousand people Monday afternoon with his eloquent effort in behalf of the black race. He gave a most authentic account of Africa; commercially, educationally, socially and otherwise.

He declared that the black man had opportunity in Africa even if that country was under European tutelage.

Civilized nations are striving to get possessions in Africa. For the next fifty or one hundred years Africa will be under the tutelage of European governments.

People in trying to keep the black the black man down have helped him and his race.

Some people say the time will come when the negro will emigrate to Africa but this is not so. This is our country and here we will make our home. Our people felled the forests and tunneled the mountains of the southland; our tears and blood have watered the soil of the southland, so you see, where we were born we will make our home.

Lady Plays Well.

Prior to the lecture by Dr. Mason, Miss Elizabeth Chaney of Rock Island rendered a beautiful piano solo. She will play again before the real Tuesday evening by Sibyl Sammas MacDermid.

Mason's Daughters Here.

Dr. Mason was accompanied by his two daughters, Mrs. Bessie Boyd and Miss Mame Mason, the latter a recent graduate from the Cincinnati university with the degree A. B. She will this fall teach German and chemistry at Birmingham, Ala.

Dr. Blanche Does Well.

Dr. W. H. Blanche, former plat-

form manager for Rock River Assembly for a number of years, has entered chautauqua work as lecturer. He has signed a contract for 13 weeks beginning the first of next June. Oct. 11th he will deliver an address at the World's Purity Congress in Minneapolis. Word comes from Davenport that the doctor and his church are getting along nicely. He sends his best regards to his many friends here and wishes the Dixon Assembly well.

Miller at Round Table.

Monday afternoon County Superintendent L. W. Miller of the Lee county schools delivered a splendid lecture on "Modern Trends in Education" before the Round Table. Mr. Miller said in part:

Our new system is a demand from the common people. Our boys and girls must be better equipped to enter life. Our homes are better today than in past years. Statistics convince us that we must change our system of education. I do not believe the criticism of the Ladies' Home Journal. Our criticism of today is of two kinds, destructive and constructive.

Supt. Miller then took up the subject of the school house. He referred to the old seats, the old stove and the poor system of ventilation. The proper system of ventilation must come. The old school room equipment must go. He then discussed the course of study. There is much in the course of study that will be eliminated. That is one of the trends of our education. There must be sanity in the course of study.

The day has come for manual training in our rural schools. Where this has been put in has never been withdrawn. There must be music in the rural school. There will be an agricultural course taught in the rural schools.

Our motto is "Back to the soil." Our school course must better adapt itself to the needs of pupils. Vocational training in rural schools is here to stay.

ASSEMBLY NOTES

Floyd Reinagh and Glen Wraton of Tampico were here yesterday.

Mrs. A. G. Hamel and son of Ashton were here Monday.

Miss Helen Arnold is assisting in the office of the Park hotel.

Poem?

Two girls at Dodge Inn, entertained two friends Sunday eve,
In a hammock quite large, but not strong;

The rope, it broke, spilled all on the ground,
After which the boys' stay was not long.

The hammock has been fixed with rope and with string,
And the girls wonder if they'll return.

A boy who can't stand a fall to the ground
Is a mighty poor thing to have around.

Harry Hartman of Mt. Carroll and Harvey Wedding of Rochelle are here to attend the Carthage picnic at Lowell park today.

L. Stevenson of Polo is visiting at the C. D. Coffman tent.

Mrs. Fred DeGraff returned to Lanark after two weeks' visit here.

Miss Elizabeth Sprecher arrived from Lanark to spend the remainder of the session at the Sprecher tent.

Miss Beulah Hammond of Lanark has returned home.

Ada Works of Polo has returned home.

Mr. and Mrs. Fred Talbot will be at Dodge Inn tomorrow.

Will Hummel of Palmyra will visit Dodge Inn tomorrow.

Mrs. Fearer, son Gerald and daughter Ruth are here from Oregon to spend the week.

States Attorney Emerson and Attorney S. W. Crowell of Oregon were here today.

The Oregon Boy Scouts broke up camp today and returned home by auto.

S. H. Reints of Oregon was here today.

Ex-Gov. Hanly of Indiana attended the lecture by Dr. Mason yesterday afternoon.

Rev. E. J. Fluck and daughter of Polo were here yesterday.

Mrs. J. L. Brearton of Savanna returned home yesterday.

Sherman Green of Morrison returned home yesterday.

Chas. D. Gallentine of Morrison spent Monday with his wife at their cottage on the grounds.

E. J. Saxton of Clinton was here today.

Mrs. Richardson of Bluff Park will leave next week for her home in Indiana for a visit.

HOUSE LOBBY QUIZ ON

Mulhall Confession Occupies Time of Two Committees.

Former Congressman Watson and N. A. M. Lawyer Charge That Senate Probers Have Prejudged Case.

Washington, Aug. 5.—Both the house and senate committees are busy today with the investigation of lobby charges made by Martin M. Mulhall, Louis Seibold of the New York World was the first witness before the house. He had much to do with turning over the Mulhall correspondence to newspapers.

When Mulhall was called on the house side he was questioned closely as to justification for bringing in the names of members of the present house. He also was asked to show just how he expected to influence legislation in the house and what confidences he really had among its membership.

Mulhall will be dealt with much less leniently than he has been by the senate committee. Several times the "lobbyist" has hinted at sensations he might cause when he got to the house, and it is generally agreed that he referred to stories of adventures in the night life of the capital.

The senate will hear Senator Joseph B. Foraker of Ohio today. The committee received more letters from Mulhall, which the "lobbyist" said proved some of the statements he made in his direct testimony. Senator Reed will examine these and may put Mulhall on the stand later to question him about them.

Robert McCarter, attorney for the National Association of Manufacturers, protested against recent newspaper interviews with the three Democrats on the committee, which, he argued, showed the case prejudged on the testimony of one witness.

Chairman Overman read a letter from former Representative James E. Watson of Indiana, who declined to appear before the committee. Watson said he expected to appear in another court where the jury would not judge the case until the evidence was all in. Watson wrote to Chairman Garrett requesting a hearing before the house committee. He will be heard at the conclusion of Mulhall's testimony.

MRS. LAMBEER IS DYING

Is Sole Survivor of Auto Crash, Husband Dying in Hospital.

New York, Aug. 5.—Her beauty marred forever, and her body probably crippled for life, Mrs. William Lambeer, who as Natalie Schenck, a belle of the Newport set, became world famous for her charm of face, lies moaning with pain in the Nassau hospital in Long Beach.

She is the sole survivor of the automobile disaster that claimed the lives of her husband and of S. Osgood Pell and the latter's chauffeur, Charles Gambeau.

Mr. Lambeer died in a hospital of his injuries, and there is only a faint hope held out for the recovery of the beautiful widow.

Emblenton, Pa., Aug. 5.—Edward O. Crawford, a millionaire oil operator here, was killed, and Mrs. Crawford and three woman friends were injured when the automobile in which they were riding went over a thirty-foot embankment in this city.

Saved by Moose's Aid.

International Falls, Minn., Aug. 5.—Clyde Buell of Minneapolis, a state university student who is working for a lumber company at Fort Francis, was rescued from drowning in the rapids of Rainy river by a big bull moose, whose antlers he caught as the animal was swimming across the river.

WEST BROOKLYN

Have you given it proper consideration? We refer to the auction of the residence on Johnson street, Saturday afternoon, Aug. 9th.

William Halbmaier transacted business here Friday.

William Auchstetter and family attended the Assembly in Dixon Friday. Chris July motored to West Brooklyn in the auto Friday.

Messrs F. W. Meyer, P. L. Ooster, F. G. Knauer and A. F. Lyman went to Streator Thursday to attend the races.

Mrs. Aloes Graf visited with friends and relatives here Friday.

Dr. E. C. White and family went to Dixon Tuesday to attend the Assembly.

John Untz Sr., transacted business here Friday.

Wednesday afternoon the deal was consummated which makes D. L. Abell the owner of D. R. Stroup's residence and lots on Fourth street, this city. Mr. Stroup's premises adjoined that of Mr. Abell's so that now the latter has a fine big yard and plenty of room to raise enough garden to support his entire family. Mr. Abell will tear down his house and erect an addition to the one purchased of Mr. Stroup and expects to move about Oct. 1st. We are told that Mr. Stroup expects to go to Iowa to make his future home.

Andrew Chaon transacted business here Friday.

Mr. and Mrs. Henry A. Bernardin returned home Wednesday night from Chicago where they had been buying furniture.

The carpenters are nearly through with work on J. H. Dinges corn crib, which is to take the place of the old one torn down. The structure will add much improvement to the farm as it is a double crib and well put up. Michael Barr was here from Compton Thursday afternoon.

William E. Bauer transacted business here Friday morning.

During this week Edward Henry, Sr., sold his saloon business and other interests in Compton to Henry Chaon and will withdraw from the business field of that town to devote his entire time and energy to West Brooklyn. Since the erection of the garage here Edward figures that he will have plenty of irons in the fire, as it is and so concluded to dispose of part of the burden of management. He knew and we know that he sold the business in Compton into good hands and it is our prediction that Henry will prove himself a winner from the start. Edward will still manage the local saloon, besides giving a good share of his attention to the garage. There could be no better location in the county than in West Brooklyn for an auto sales room and repair shop and with the fine building we have here in a convenient street of the city, we can see where the firm will be loaded with work just as soon as everything is opened for business.

It was feared for awhile Wednesday night that the dance would have to be held without the electric lights to illuminate the hall, for the juke suddenly disappeared between 8 and 9 o'clock and was off for a solid hour. At nine o'clock the lights again appeared and worked in fine shape during the balance of the night much to the satisfaction of the hall management and the dancers as well.

Forresters Attention. The regular meeting night for the local court for August will be held Thursday evening the 14th. Make an effort to attend.

John C. Henkel transacted business here Thursday.

Miss Josephine Jeanguenat who has been in the central part of the state for the past few years, came up last week to spend a short vacation with her many relatives here.

Mr. and Mrs. Adolph Chaon visited here Thursday.

Miss Mary Blee of Pawpaw returned to her home Friday morning after a visit of a few days with Jennie Dysart of this place.

A bad mishap occurred this week at the Joe Auchstetter farm when his hay field caught fire and burned up about ten acres. The workers were busy gathering the hay and it is supposed that one of the men dropped the fire from his pipe into the dry hay and in a little while it soon burned. A straw stack standing in the middle of the field burned with the hay and it took a lot of hard work to conquer the fire and keep it from spreading further.

Joseph Bieschke was here from Viola township Friday morning.

The storm Wednesday night marred the dance as the majority of the people were frightened and returned home before the dance started. About 30 couple remained, however,

and were the ones who guessed right for after frightening everyone thoroughly we did not get enough rain to fill a tub if we had all fallen into the tub. The concert preceding the dance was enjoyed very much by the big crowd on the street.

It is to your interest to remember our clubbing offers. They include the Chicago Daily Journal, Chicago Record Herald and Chicago Daily Tribune.

Lets see! Who has forgotten to call upon the village clerk and pay the water rent for this quarter?

At 2 o'clock Saturday afternoon will occur the sale of a residence on Johnson street at auction, August 9th.

John Erbes has been trying to get a well that contains water on his land adjoining the east part of town, but was unsuccessful in the first trial. They dug down to a great depth but the further they dug the harder the ground got. A second trial is being made at this writing and we hope they meet with better success. F. D. Gehant dug one on his new premises and succeeded in getting a nice well with six feet of water the very first thing.

Edward Henry went to Chicago on business Thursday. He returned home Friday.

George Schnuckel was here Thursday.

Mrs. Oliver Gehant went to Havana evening for a few days visit with her parents.

Louis Bauer transacted business here Friday.

Julius Delthol went to Dixon Friday where he had business for the day.

Keeping the Body in Repair

Nature intended that the body should do its own repairing—and it would do so were it not for the fact that most of us live other than a natural life.

Nature didn't intend that we should wear corsets, tight collars or shoes, nor live in badly ventilated and draughty houses, nor eat and drink some of the things that we do, nor ride in street cars when we should walk. The consequence is that the body when it gets out of order must look for outside help to make the necessary repairs. For weak stomachs and the indigestion or dyspepsia resulting, and the multitude of diseases following therefrom, no medicine can be more adaptable as a curative agent than **DR. LAMB CHOPS, ENGLISH STYLE

Across the Water They Are Generally Served With Green Peas, and Combination Is Delicious.

Wipe each chop with a damp cloth and trim off any extra fat. Break an egg in a saucer, add a tablespoonful of warm water and beat with a fork just enough to break the stringiness. Have ready a quantity of dried and sifted bread crumbs. Cracker crumbs are often used, but do not give as crisp a crust. Dip each chop in the egg, lift up and drain for a moment, then roll in the crumbs. Repeat until the chops are breaded. In a saucepan put a tablespoonful of butter, one-half of a teaspoonful of salt and sugar and one-quarter of a teaspoonful of pepper. Place over the fire, and as soon as hot add one quart of shelled peas. Cover and shake for two or three minutes, add just enough boiling water to keep from burning and cook, adding a little water as needed until tender. Have a quantity of fat in a saucepan. Heat until smoking hot. Plunge in two or three chops at a time; in half a minute draw to the side of the fire and cook more slowly. They should be done in from five to eight minutes, according to the thickness of the chops. Drain on unglazed paper. Heap the peas in the center of a platter and range the chops round.

The Housekeeper

An easy way to polish solid silver and plated ware is to rub the tarnished places with a piece of raw potato, dipped in common baking soda. This is quickly done and the silver does not incline to retarnish so soon as with other polishes.

Try wiping the matting on bedroom floors with a mop wrung out of salt water, before sweeping. Rinse as often as necessary to take up the dust. Then it requires only a moment to sweep up and you have no dust flying.

Socks and stockings should be darned on the right side, so that the smooth part of the mended place will come next to the foot, thus preventing irritation.

It is much better when cleaning rugs or Brussels carpets to lay on the grass right side down, beat thoroughly, then turn over to a clean place and sweep well, as it does not wear them so much as to whip them on a clothes line.

A little vinegar in water will clean and brighten windows better than anything else.

When eggs are broken and can not be used at once, remove from the shell and keep well-covered in a cool place. This will prevent the yolks from hardening.

Sorting Hose.

Take stockings when new and, with a thread of contrasting color, put a small mark in the hem of each, marking each pair differently. This will save a great deal of time when sorting pairs after being laundered.

Iron Rust on Linen.

When linen becomes rusted from the iron, oxalic acid and hot water applied before washing removes the stains. After using the acid rinse the linen a few times, which leaves the linen beautiful and white.

NOTICE.

Inviting proposals for furnishing motor fire apparatus including fire truck, motor combination chemical engine and hose wagon and all other necessary equipment.

Notice is hereby given that the City of Dixon will receive proposals for the furnishing of motor fire apparatus including fire truck, motor combination chemical engine and hose wagon and all other necessary equipment at the office of the Mayor of said City of Dixon in the City Hall in the City of Dixon, County of Lee and State of Illinois, up to Wednesday, the 3rd day of September, A. D. 1913, at the hour of two o'clock p. m., at which time and place the Mayor of said City will open said proposals and publicly declare the same.

All bids shall be sealed, and opened by the Mayor in the presence of a majority of the Council and shall remain on file in the Mayor's Office and be open to public inspection for at least forty-eight hours before an award of said contract is made to any competitive bidder.

The Council shall determine the most advantageous bid for the City and shall enter into a contract with the responsible party submitting the most secure bid.

The bidders in their proposals shall submit complete specifications of their fire apparatus and equipment bid on, and the price therefor. The Council of the City of Dixon reserves the right at all times to reject any and all proposals submitted. All proposals submitted shall be properly endorsed "Proposals for Fire Truck" and addressed to Martin J. Gannon, Commissioner of Public Health and Safety, Dixon, Illinois.

Dated July 30, A. D. 1913. Signed, COUNCIL OF THE CITY OF DIXON.

By MARTIN J. GANNON, Commissioner of Public Health and Safety.

Their Morning Talk

"Say, ain't it the limit the way us girls has to hurry in the morning?" demanded Miss Martin, twisting in front of the rest room mirror, with her mouth full of hairpins. "I never get my puffs on to suit me before ma's hollerin' to know if I ain't goin' to eat nothin' before I have to run for the 7:27, an' I just have to fall down the stairs whether I got my clothes on or not."

"Aw, it's somethin' fierce!" agreed 'Stelle, the billing clerk. "I betcher if old Parkhurst had to hurry just once the way we do he wouldn't raise no holler every time we took a minute after eight o'clock to get ourselves lookin' decent."

"He gives me a pain," put in Mabel. "That yawp of his ought to get him a job on the L. 'Fullerton next—change for 'Wrightwood, Dufferin an' 'Wellington.' Say, Martie, ain't you got a new tie?"

"Juh like it?" "Sure! Red's awful becomin' to you; you ought to wear it all the time. Juh buy it, or swipe it off'n that good-lookin' feller we seen you with on State street?"

Miss Martin bridled. "Say, what you talkin' about? I don't go round on State street with no fellers. I always travel in a taxi!"

"Oh, you swell thing! Girl in the Taxi—What? Say, girls, juh s'pose my green satin evenin' gown, cut day-colletay, will be swaggor enough to wear to Martie's weddin', or will I wear a rope of pearls? Anyway, I didn't swipe the red flag off'n anybody; I bought it myself at the Mammoth store about a month ago."

The door opened and into the already crowded room pushed Big Johnson.

"Yep! Late again. Cars blocked. H'to, Martie; what's that about the dangler-singer? You don't mean to say you've had a red tie for a month and never wore it once? You've had a strange hold on that mirror long enough. Let me have a look at it—a man on the platform jabbed his elbow into my face and I guess likely I've got a dent that'll change the phenologist's readin' and make me marry the dark man!"

"All right, go ahead, if you're that stuck on your face," replied Miss Martin, unabashed, settling herself comfortably in the waste-basket, which, bottomless and sway-backed, bore mute testimony to its popularity in the chairless and couchless cubbyhole designated the rest-room.

"Say," went on Miss Martin, "it's no chinch to be part of a big family, specially when you're a stock size. Every time I want to put on my clothes I never can find 'em, but I don't bother to hunt around in the closet—I just run right out and look around at the rest of the folks, and sure's you're a foot high somebody'll have 'em on."

"I was sayin', I bought this red tie a month ago, an' instead of wearin' it down next mornin' I left it on my bureau. When I came home, Harry was wearin' it. I didn't say nothin' for Harry's awful good about lettin' me wear his ties, but next night I met Dick on Randolph, an' he had it on! When he got home that night I raised a holler. I said if I wanted to buy things for other people I'd start a orphan asylum—the orphan's 'od be more grateful, anyway—an' I'd thank everybody to leave my things alone, for I was sick of lookin' on other folks for my clo'es when I wanted to wear 'em myself."

"Oh, I raised a fierce fuss. Did it do any good? Say! Next time I wanted that tie, I found it hangin' on Harry's gas jet, an' him thinkin' he owned it. He was real insulted when I took it this mornin'. Ain't that a brother for you?"

"That's not as bad as what my sister did to me," said Big Johnson, turning around with a chuckle. "You know that chemise with the Irish lace insertion Mabel gave me Christmas? Well, I looked all over for that the other night, and then I knew sis must have it on. I went downstairs. She was entertainin' her beau in the parlor, an' the minute I came in, she knew what I wanted. I could see it right through her peekaboo."

"Did she budge? Well, not a thumb-nail. She sat there and smiled at me, an' course I couldn't say what I wanted before him—he's awful shy. An' I couldn't get her out of the room, either, or I'd have got it. I had to wear my old one to stay all night with Lily Hyde. Oh, I was boilin' mad at her."

"Sst!" 'Stelle put her head inside the door cautiously. "Parkhurst is lookin' for you, Johnson. Cut it out." "Hurry—hurry!" sighed Miss Martin. Gee! I wish I could stick a pin in that old savage."

Success Won Early.

Decisive success often is won early in life by stage folk. Dion Boucicault was famous at nineteen as the author of "London Assurance," Nat Goodwin's renown as a mimic was widespread before he was twenty; Edward E. Rice had but turned his majority when he scored with "Evangeline"; Edna Wallace Hopper was in short skirts when she first became an idol of Broadway; George W. Lederer, at the height of his acclaim as a musical comedy producer at the New York Casino was but twenty-seven, and Richard Carle was a full-fledged comedy star at twenty-six.

NOTICE TO CONTRACTORS.

Sealed proposals addressed to the Board of Local Improvements and the Council of the City of Dixon, Lee County, Illinois, and endorsed proposals for the furnishing of the labor and materials for the construction of Vitrified Tile Pipe Sewer with manholes, storm-water inlets and house-connection laterals, on East Everett Street, North Jefferson Avenue and East Fellows Street in the City of Dixon, Lee County, Illinois, as provided for in Local Improvement Ordinance No. 146, Series of 1913, of said City of Dixon will be received by the Board of Local Improvements and the Council of the City of Dixon, Lee County, Illinois, at the City Clerk's Office in said City of Dixon, until two o'clock in the afternoon on Monday, August 11th, A. D. 1913, and will be publicly opened by the Mayor of said City of Dixon (who is President of said Board of Local Improvements) at a joint meeting of said Council and Board of Local Improvements to be held in the Council Chamber in the City Hall in said City of Dixon at two o'clock in the afternoon on said day. Said bids shall be opened by the Mayor in the presence of a majority of the Council and shall remain on file in the Mayor's Office and be open to public inspection for at least forty-eight hours before an award of said contract is made to any competitive bidder. After the expiration of forty-eight hours, as above stated, said Council and Board of Local Improvements shall meet in joint session and determine the most advantageous bid for the City and publicly declare the same.

The work for which said tenders are invited is the construction of about 1644.18 cubic yards of earth excavation and backfill; about 52 linear feet of 6" laterals (said), about 260 linear feet of 8" sewer pipe (said), about 360 linear feet of 10" sewer pipe (said), about 815 linear feet of 12" sewer pipe (said), about 180 linear feet of 10" storm water pipe and traps (said); Three (3) manholes, 4 feet inside with iron covers and iron steps inside complete. One (1) manhole 3 feet inside, complete, and Six (6) cement headers at inlets as provided for in Local Improvement Ordinance No. 146, Series of 1913 of the City of Dixon, Illinois.

Each bid for this work must be accompanied by a certified check or cash for an amount not less than ten per cent. of the aggregate of such proposals. All certified checks must be drawn on some responsible bank and must be payable to the order of the President of the Board of Local Improvements in his official capacity. No bids will be considered unless accompanied by such certified check or cash.

Said cash or certified checks will be held by said Board of Local Improvements until all the bids have been canvassed and the contract has been awarded and signed. The return of said checks or cash to the successful bidder being conditioned upon his appearance within fifteen (15) days after having been notified of the award having been made to him or them, accompanied by his or their bondsmen and executing a contract with said Board of Local Improvements for the completion of the work so awarded and giving a bond satisfactory to the Board of Local Improvements and Council of the City of Dixon.

A bond of Sixteen Hundred (1600) Dollars will be required conditioned for the fulfillment of the contract in accordance with the ordinance and specifications and to the satisfaction of the said Board of Local Improvements and Council of the City of Dixon. All proposals must be made on blanks which will be furnished bidders at said City Clerk's Office.

The payment for the work for which said tenders are invited is to be made in cash or bonds, payable when the contract is complete, and the work accepted by the Board of Local Improvements and Council of the City of Dixon, bonds to draw interest at five per centum. No bid will be considered unless the party making it shall furnish evidence satisfactory to said Board of Local Improvements and Council of the City of Dixon of his experience and ability in this class of work and that he can control sufficient capital to enable him to successfully prosecute the same in case the contract shall be awarded to him.

Bidders will examine the ordinance, maps, plats, plans, profiles and specifications and also the locality in which said work is to be done and judge for themselves of all the circumstances and surrounding conditions affecting the cost and nature of the work.

Specifications are on file in the Mayor's Office and may also be seen at the office of the City Clerk of the City of Dixon from and after this date.

The Board of Local Improvements reserves the right to reject any and all bids.

COOL AND NUTRITIOUS

WELL-MADE MILK-SHAKE A DELIGHT ON A HOT DAY.

Easy to Make at Home. Provided the Necessary Utensils Are at Hand, and They Are Cheap and Easily Procured.

A food drink of real nutritive value and tempting appearance and taste is the well made milk shake. It is a lunch in itself for a warm summer's day, and is always a satisfying beverage for one who is hungry and tired.

The home made milk shake is just as good as the one made by the very best confectionery, if it is properly made. To begin with, if you would be a past master in the art of shake making, you must possess yourself of a shaker. One of nickel plate that is strong enough to stand hard shaking, made with a screw cover and a little spout through which the shake can be poured into a glass, costs about two dollars. The spout is covered with a small tip which can be unscrewed, and this is fastened to the top by a short chain which keeps it from being easily lost. Shakers for less than a dollar can also be bought, and they are quite as satisfactory for making a good milk shake.

For an egg milk shake, break an egg into the shaker, add flavoring and sweetening, half fill the shaker with rich milk and shake vigorously, in both hands, for three or four minutes. Pour it into a glass and fill it with milk. If a plain milk shake is wanted, put flavoring, sweetening and milk in the shaker and shake them together by holding one hand over the top, the other over the bottom of the shaker, and shaking vigorously from the elbows.

If vanilla or some other flavoring extract is used, sweetening, either in the form of granulated sugar or a sweet sirup made by melting sugar over the fire in just enough water to boil it in solution, must be used with it. If a flavoring sirup is used that is generally sufficiently sweet.

Chocolate sirup can be kept on hand for making milk shakes. To make it, mix a third of a cupful of cocoa with two cupfuls of granulated sugar. Gradually add a cupful of boiling water and let the mixture boil for five minutes. When it is cold add a teaspoonful of vanilla and a teaspoonful of very strong coffee. This mixture of flavors produces a delicate taste, but the coffee can be omitted and twice as much sugar added instead. About two teaspoonfuls of the sugar are needed for one glassful of milk.

If the milk shake made according to the directions already given proves too heavy, make it with two-thirds milk and one-third apollinaris water, drawn ice cold from a siphon.

Sour Cream Dressing.

Cream together one-quarter cup each sugar and butter, one tablespoon each salt, flour and mustard and a few grains cayenne. Scald half-pint jar light cream which has been soured. Add the yolks of two eggs to the first mixture with the scalded cream. Cook over hot water, stirring constantly until the mixture begins to thicken, then add half a cup vinegar, gradually, stirring constantly and finish thickening. Strain and cool.

Ginger Sauce.

Bruse one or two pieces of whole ginger, put them into a saucepan with three ounces of loaf sugar and a pint of water and boil for several minutes, then skim and strain the liquor. Mix a little arrowroot smoothly with a little cold water, stir in the other liquor, return it all to the steptan and stir over the fire till thickened and boiling, when it is ready for the table.

Fire Laid to Suffragettes.

London, Aug. 5.—The residence of the late Sir George Newnes, at Lynton, North Devonshire, was destroyed by fire. The police believe the fire was set by suffragettes.

Cork Filling for Pillows.

Get from your grocer a quantity of the ground cork in which grapes are packed. With it fill pillows for the porch and hammock. They are light and comfortable and are not injured by a storm. There is no danger of their drawing dampness and becoming matted, as so many fillings do.

For Perfuming Handkerchiefs.

Break up a quarter of an ounce of orris root and tie up in a piece of muslin. Boil with the handkerchiefs for a quarter of an hour, using about three pints of water to a quarter ounce of orris root. When dry iron carefully and you will find your handkerchiefs will retain a delicate violet odor.

Laundry Hint.

When washing dresses with patent fasteners on them, fasten them before washing. This keeps the springs all right and saves time and trouble.

To Keep Onions.

Heat a poker red hot and with it singe the roots to prevent all premature growth; place in a dry cold room.
